November 29th, 2021

To whom it may concern:

The purpose of this letter is to offer a recommendation for an outstanding student at Mountain Empire High School, Mariyah Weldy. As a teacher, I have seen many successful students pass through my doors in the Math Department; this student is simply one of the most dedicated and hardworking students yet.

Mariyah is an exceptional student. She is involved in every aspect of our school, and she maintains a positive attitude throughout the entire school year. She is a positive role model, and her ability to take on difficult tasks with her positivity is impressive. Mariyah mentors and tutors struggling students, she is the secretary for the Class of 2022, she is a leader on the basketball team, works after school and has a variety of hobbies that keep her busy. When Mariyah sets her mind to something she is sure to accomplish it.

Mariyah's attitude towards learning is probably one of her most admirable qualities. If there is an assignment due, I can count on Mariyah to tackle it with grit and persistence. If there is a test, she studies well and often comes to me on her own time to make sure her understandings are valid. This young lady shows her commitment to her learning by asking clarifying questions, practicing, and delivering her best work.

Mariyah's work ethic is impressive and it shows in her grades. I had the pleasure of teaching and learning with her in MRWC and was consistently amazed at her intelligence, determination and fluency across the curriculum. It is an absolute that Mariyah has a bright future and that she has easily positioned herself for greatness in the coming years. Her courage, strength, positive outlook and unremittent passion for learning and serving will accompany her on her journey always.

To say that everybody appreciates Mariyah and her hard work is an understatement. She is kind, generous, and brings out the best in those around her. If there is one student I could choose to be admitted into an institution it would be this extremely deserving young lady. Please consider her for your school and I promise you will not be disappointed.

Sincerely,

Kylie Vari
Math Teacher
